OFFICE ACTION

TO AVOID ABANDONMENT, WE MUST RECEIVE A PROPER RESPONSE TO THIS OFFICE ACTION WITHIN 6 MONTHS OF OUR MAILING OR E-MAILING DATE.

Serial Number 76/199170

Applicant is requesting reconsideration of a final refusal dated April 29, 2003.

The applicant's request for reconsideration is granted. However, the finality of the Section 2(a) and 2(e) (3) refusals are continued.

The applicant argues that there is insufficient evidence in the record to support the geographically descriptively misdescriptive refusals. The applicant has also argued in the alternative that possibly deleting the goods and applying for the services in Class 35 may be sufficient to overcome the finality of the refusal. Contrary to the applicant's arguments, the evidence already of record does support the refusals for both the goods and services. However, the examining attorney attaches additional evidence regarding retail store services in England and retail furniture stores in England. These show that England is not only known for its furniture, but also has a retail services industry. Moreover, while the applicant's store is not physically located in England, prospective consumers could mistakenly assume that a retail store named England would also carry furniture from the named geographic location.

The applicant may respond to the refusal to register by submitting evidence and arguments in support of registration, upon the applicant's response the application will be returned to the Trademark Trial and Appeal Board for resumption of the appeal.
